

Dear MN Honor Society Member,

The Juvenile Diabetes Research Foundation (JDRF) is thrilled to have been chosen as your state service project again this year and we look forward to partnering with you over the coming months. Last year, your NHS groups raised an amazing \$24,000 for JDRF! We truly appreciate your efforts and hope to have another successful fundraising year in 2010.

Diabetes touches the lives of so many people...almost everyone knows someone affected by this disease. I invite you to join us in our mission to find a cure for diabetes...through research funded by JDRF, we are closer than ever. Your NHS groups can be part of the cure!

I am available to help with any questions or meet with you to help plan fundraising activities. Please feel free to call on me at anytime.

I look forward to working with you,

Kara Fischer
