

Together we have the power to change the world for our children.

If we are ever going to move forward together we need to believe

We need to believe...

that we as adults make a difference in the lives of all students

that it does not cost money to provide a caring and nurturing environment for students

that we are the most consistent and influential people in the lives most kids

that students are the potential not the problem

We need to believe...
that kids need mentors, role models, heroes
and we are them

that every student has something to teach us

that we influence the future every time we
sit down and talk to a student

that hugging a student and showing that you
love them is more valuable than words can
express

that the littlest thing we do can make a
difference in the life of a student

that every student, short, tall, skinny, heavy,
clean cut and yes even those with long hair,
tattoos and pierced body parts can grow up
and be something

It's time to believe that wonderful surprises
are just waiting to happen, and all our hopes

and dreams for our children are within reach
if only we believe.
